## Front-End Developer

9828368262 | komals5700@gmail.com | [Linkedin](#)

---

### SUMMARY

Highly skilled Front-End Developer with 2 years of experience in web application development, specializing in building responsive user interfaces and optimizing front-end performance. Proven ability to create engaging user experiences and contribute effectively in Agile teams. Proficient in React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Sass/SCSS, Redux, Context API, RESTful APIs, Unit Testing, and Git workflow.

---

### PROFESSIONAL EXPERIENCE

#### SOFTWARE DEVELOPMENT

##### **Truworth Infotech Pvt Ltd, Jaipur, Rajasthan**

*June 2023 – Present*

- Developed and maintained responsive user interfaces using React JS, Next JS, HTML5, and Tailwind CSS, resulting in: improved user engagement on key pages and successful launch of several new features.
- Updated old code bases to modern standards, successfully reducing operating costs by approximately 10-15% and enhancing application stability.
- Utilized JavaScript (ES6+) for implementing features and handling data using RESTful APIs, optimizing data fetching processes.
- Collaborated effectively within an Agile framework, participating in sprint planning and daily stand-ups.

#### SOFTWARE DEVELOPMENT INTERNSHIP

##### **Truworth Infotech Pvt Ltd, Jaipur, Rajasthan**

*November 2022 – May 2023*

- Developed foundational web pages and components using Semantic HTML, CSS, and JavaScript.
  - Gained hands-on experience with React JS by contributing to small features.
  - Assisted the development team, learning about Git version control and basic API integration.
- 

### EDUCATION

##### **Institute of Engineering And Technology, Alwar, Rajasthan**

2018 - 2022

B.Tech. | Computer Science Engineering

- Awarded 2nd Runner-Up in College Hackathon.
  - Relevant Coursework: Data Structures and Algorithms, Web Development.
-

## PROJECTS

### The Wellness Corner:

- Developed and implemented responsive front-end web pages for a comprehensive wellness platform, focusing on: enhancing user experience and data presentation.
- Integrated various RESTful APIs using Axios to fetch and display dynamic data, enhancing user experience and improving: data loading speed and reliability.
- Collaborated on building user interfaces for specific sections of the website, contributing to the successful launch of: the user dashboard and content display sections.
- Add a bullet point about a specific technical challenge you faced and how you solved it, potentially related to performance or cross-browser compatibility, e.g., "Resolved cross-browser compatibility issues for key components, ensuring consistent user experience across major browsers."
- Technologies used: React JS, JavaScript, HTML, Tailwind CSS, Axios, RESTful APIs.
